

Power Pole Mounting Kit KIT-PWRPOLEMNTTM

DATA SHEET

FEATURE SUMMARY

- Quick, secure mounting system
- Compatible with Dyacon MS-100 autonomous weather stations
- One-person installation
- Made in US

Shown with Dyacon MS-130 weather station.

DESCRIPTION

KIT-PWRPOLEMNTTM is designed to easily and quickly install a Dyacon weather station to power or light poles.

The power pole mounting kit includes a top bracket on which the mast hangs.

The bottom bracket initially fastened to the vertical pole, secures the mast bottom.

Applications include:

- Power utility line management and maintenance
- Snow making
- Grower and agriculture
- Industrial safety

KEY FEATURES

Construction: Aluminum pipe and structural channel
3/8" x 2-3/4 zinc-plated lag bolts.

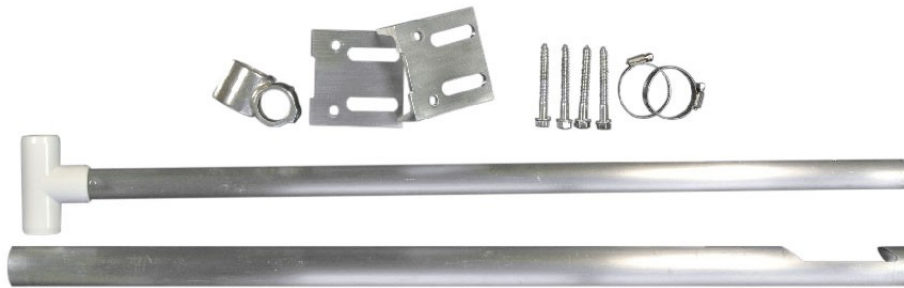

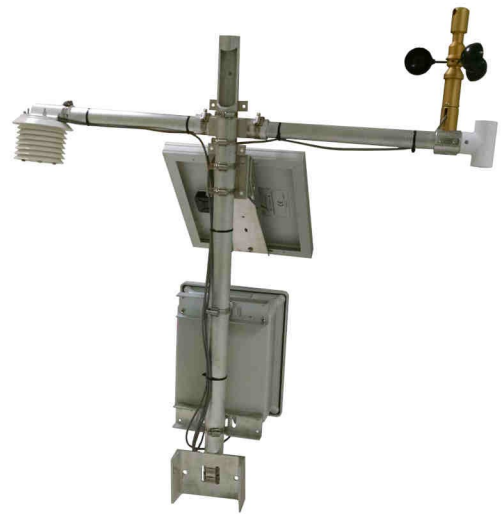

Image 1: KIT-PWRPOLEMNT components.

Single-person installation. (Ski hill light example.)

Step 1: Install top hanger.

Step 2: Attach weather station components and bottom bracket to mast.

Step 3: Hang system on top bracket.
