## Tripod-1

## DATA SHEET

## FEATURE SUMMARY

- Modular construction
- Field configurable
- Multiple configurations
- 6061 aluminum
- Single tool assembly
- Adjustable legs

## DESCRIPTION

Tripod-1 ${ }^{\text {TM }}$ is a field-serviceable, field-configurable, modular, aluminum tripod.

The same segments are used for the mast and legs, allowing the installer to reconfigure the tripod in the field to accommodate multiple conditions and repair scenarios.
Tripod-1 ${ }^{\text {TM }}$ requires only a single wrench to adjust the guy cables.

Tripod-1 $\mathbf{1}^{\mathrm{TM}}$ is suitable for weather station equipment, lightweight antennas, and lighting.
The mast may be erected from the bottom through the center hub. This facilitates installation and service by allowing the mast to be raised and lowered without removing stakes or requiring a ladder.

KEY FEATURES
Construction: 6061
machined and welded aluminum.

The mast is constructed of 1 " ( 1.32 " $/ 33.5 \mathrm{~mm}$ ) pipe, which is compatible with standard structural pipe fittings.

Quick-release buttons lock each segment and a quick-release pin secures the mast in the elevated position (as pictured).

Standard wire rope clips are used for the stainless steel wire rope guy lines.
Stainless steel D-shackle, turnbuckle, and thimble.
Assembly Tools: 5.5 mm (7/32") wrench to adjust the guy cables. Additional tools may be required for stakes or screws, depending on installation location.

Configuration: Tripod-1 $\mathbf{1}^{\mathrm{TM}}$ is available in 7 - and 10 -segment kits.
Mast segments and leg segments are identical and may be interchanged to for a number of field configurations.
Guy cables can be attached to the legs for portability and minimal installation area, or staked separately.
Each adjustable leg has a large foot with holes for $1 / 2$ " rebar and $3 / 8$ " screws.

MECHANICAL-7-SEGMENT

| Material | $3 / 4 "$ " 1 ", and $1^{1 / 4}$ " $^{6061}$ Aluminum pipe |
| :---: | :---: |
| Weight | 9.8 kg (21.6 lb) |
| Functional Segment Length | 33.5 mm diameter x 0.91 m (1.3 in diameter x 3 ft ) |
| Max Height ${ }^{1}$ | 4.76 m (15.6 ft) |
| Storage/Ship Dimensions | $280 \times 280 \times 1070 \mathrm{~mm}$ ( $11 \times 11 \times 42 \mathrm{in}$ ) |
| Leg Adjustment | Pin, 25.4 mm (1 in) centers |
| Max Slope ${ }^{2}$ | $13^{\circ}$ (23\%) |
| Max Base Diameter | 1.8 m ( 5.8 ft ) |
| Max Triangular Base | Approximately 1.78 m ( 5.8 ft ) per side |
| Leg Base | $89 \mathrm{~mm} \times 89 \mathrm{~mm}$ (3.5 in $\times 3.5 \mathrm{in}$ ) |
| Guy Cable | $2 \mathrm{~mm} \times 6.1 \mathrm{~m}$ ( $1 / 16 \mathrm{in} \times 20 \mathrm{ft}$ ) |

MECHANICAL - 10-SEGMENT

| Material | $3 / 4 ", 1 "$, and $11 / 4 " 6061$ Aluminum pipe |
| :--- | :--- |
| Weight, Max | 10-segment: $12.4 \mathrm{~kg}(27.2 \mathrm{lb})$ |
| Max Height ${ }^{3}$ | 6-segment: $3.5 \mathrm{~m}(11.4 \mathrm{ft})$ - Standard |
|  | 7-segment: $4.4 \mathrm{~m}(14.4 \mathrm{ft})$ <br> 10-segment: $5.3 \mathrm{~m}(17.4 \mathrm{ft})$ |

As-shipped. 10-segment tripod shown, 6-segment is standard.

Sand/Snow plate option.

ACCESSORIES

| Stakes | 13 mm x $45 \mathrm{~mm}(1 / 2 "$ rebar x 18") |
| :--- | :--- |
| Structural Fittings | Compatible with 1" structural pipe <br> fittings. |
| Feet | Sand/Snow feet accessories. |
| - Single segment in each leg position and four mast segments. (See top <br> image.) |  |
| $2-$One leg down hill in maximum height position. Uphill legs in storage <br> (lowest) position. |  |
| $3-$ Two segments in each leg position and four mast segments. |  |

Leg extension and turnbuckle assembly.

Mast insertion from bottom.
